

New Stretch Seat, Back and Bed Sensing Mats

PREVENT TISSUE TRAUMA • IMPROVE CLIENT COMFORT • ENHANCE CLIENT FUNCTION

• Powerful, Easy to Use Seating Assessment Wizard

• Easy to install, use and maintain

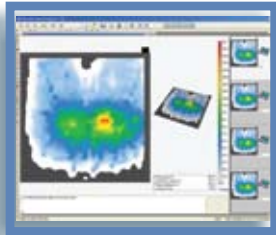

• Great user support

• Easily portable with tablet computer and blue tooth

PATENTED STRETCH SENSORS *The heart of our system is an innovative pressure sensing fabric that is stretchable and breathable.*

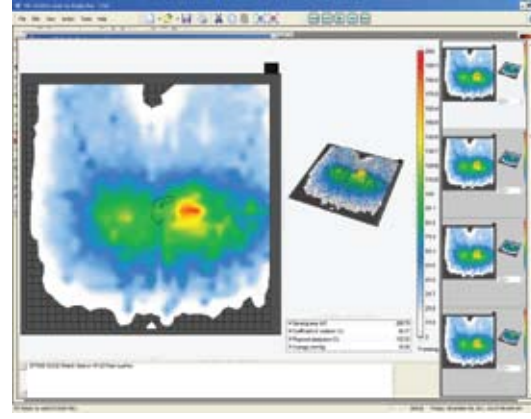

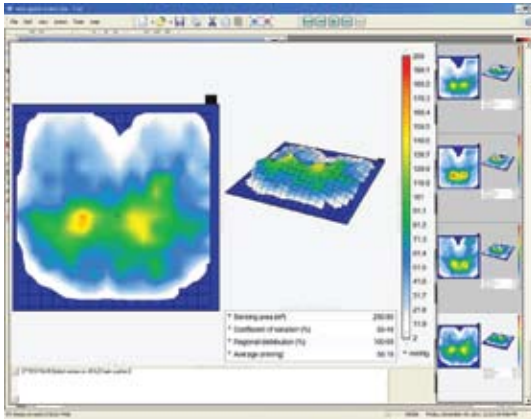

• **EASY TO SET UP.** It's incredible how easy and intuitive FSA is to use. Quickly Scan or record client pressure mapping data easily into one file over time or take advantage of the FSA Seating Protocol Wizard that helps guide you through the use of FSA as part of a seating evaluation.

• **EASY TO SHARE.** Add a tablet computer to FSA and you have a lightweight, portable system. It's easy to review, select and compile a report you can share with others as a color print, Word document or PDF.

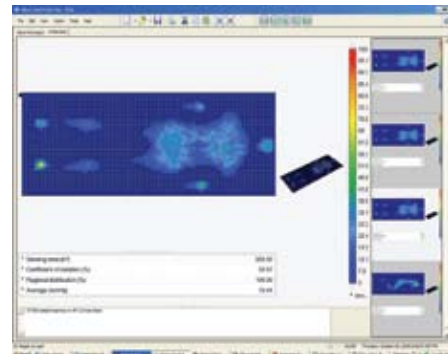

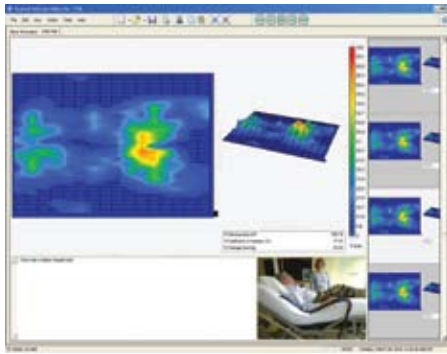

• **EASY TO FIND HELP.** A person who knows how to help and solve your problem. You also get free software upgrades to help you take advantage of the latest FSA technology. Each FSA system arrives complete with software, electronics, SoftFlex sensing mats (our thinnest, most flexible and durable mats) and a calibration kit so you can start fast and stay up to date.

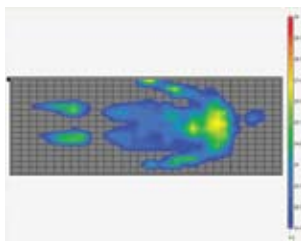

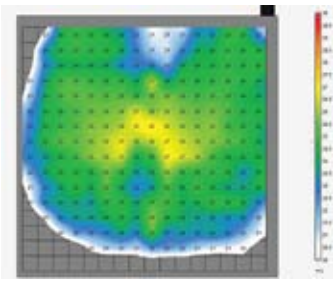

More Choices for New Stretch Seat, Bed, and Temperature Sensors

Standard Resolution: 16x16 array with 256 sensors OR Higher Resolution: 32x32 array with 1024 sensors

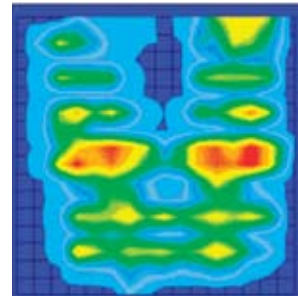

Stretch Torso and two resolutions of Bed sensing mats are also available.

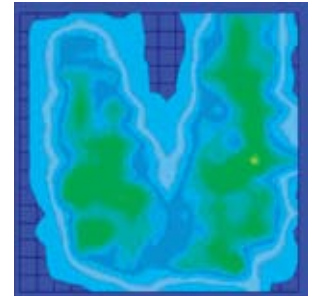

Seat and Bed Temperature Sensors

BodiTrak Smart Seat and Bed Surfaces

Unacceptable high pressure areas

Evenly distributed pressures areas
