

BodiTrak2—Pro & Lite Pressure-Mapping Systems: Choosing the right tool

BodiTrak2 Pro

The BodiTrak2 Pro is a powerful and comprehensive system used by seating rehabilitation professionals around the world to assess and document their patients' pressure management, posture, and comfort needs. It provides confirmation of the best surface and positioning solutions for the client.

BodiTrak2 Lite

The BodiTrak2 Lite is designed for patient education, training, comfort and for situations where more complex seating evaluations may not be required. It is also an affordable tool for monitoring solutions over the longer term.
